About Us

Mittal Tech is leading SIP Unified Communications solutions over Saudi Arabia , Since 2013 Mittal Tech has pioneered the way of providing SIP Unified Communications solutions with high quality of service and up to date technology. Mittal Tech has built its reputation by focusing on two main points customer satisfaction and great relation with partners.

Our Mission & Vision

■ To be the recognized leader of IT solution providers in the MENA region through unparalleled quality and customer support, ensuring complete customer satisfaction.

■ To provide optimal IT solutions for our clients by working closely with them to determine their needs, design optimal solutions, and assist in their implementation in order to increase the efficiency of their operations and boost their profit.

Services

A. Unified Communications

B. Videoconference

C. Security

A. Unified Communications

A-1 Unified Communications

Unified Communications (UC) refers to a phone system that integrates and enables various communication methods within the business. By unifying phone calls, video conferencing, SMS, email, Live Chat and so on, users can share and access data all from one centralized location, collaborate in real-time and hold audio and video conferences with multiple people. No matter how big or small your company is, the right Unified Communications solution can take your business communications to the next level, helping to improve collaboration, boost productivity, increase mobility and enhance user experience.

- See the Status of Your Colleagues.
- Deliver Faxes & Voicemail to Inbox.
- Instant Messaging / Text chat.

A-2 Call Center

Call center software allows team members to work from various dispersed locations while retaining a cohesive unit through unified communications

- Never Miss a Call – Advanced Contact Center Reporting
 - Advanced Queue Strategies and Real-Time Statistics
 - Superior Call Center Features Included.
 - Server-side CRM Integration
- 

A.3 Cloud Solutions

Cloud Solutions

Cloud PBX & Advanced Unified Communications

Connect onsite, remote, and mobile workers with business phones, video conferencing, chat, and more

B. Video Conference

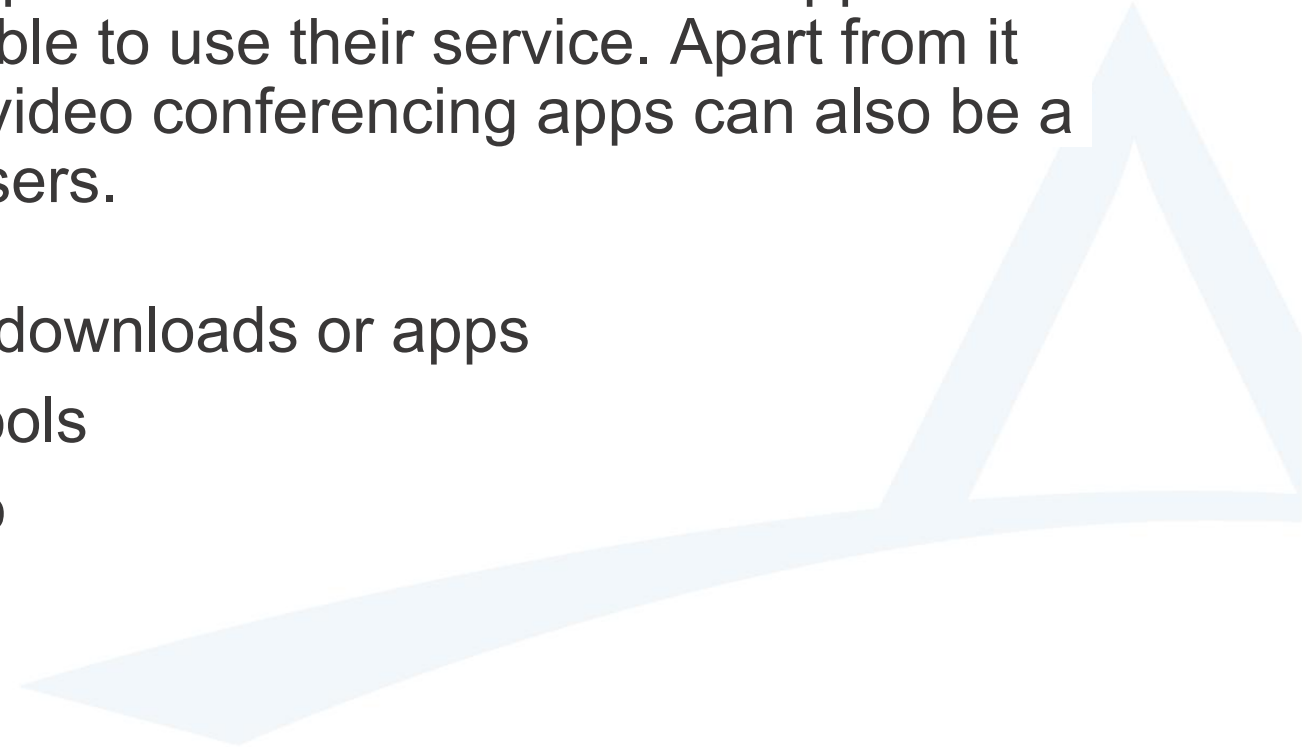

Video Conference

Most video conferencing solutions require users to download an app or signup and create an account to be able to use their service. Apart from it being time-consuming, downloading video conferencing apps can also be a security risk as well as a barrier for users.

- Hassle-Free Video Conference. No downloads or apps
- Presentation & remote assistance tools
- Smartphone apps to meet on-the-go
- For unlimited users

Security

Network Security

- Firewall
- Wireless
- Switch
- Zero Trust Network

Endpoint

- Endpoint (EDR)
- Workload Protection
- Mobile
- Encryption

Email & Cloud

- Email
- Fish Threat
- Native Security
- Workload Protection
